Summary

Reliable, independent worker with a good education and experience of working in a business environment, with a diverse range of people. Flexible regarding hours of work including evenings and weekends.

Education

2009 - Present | Balcarras School

- A Levels (in progress): Mathematics, Further Mathematics, Computing
 - AS Levels: Mathematics (A) Further Mathematics (B), Computing (B), Physics (B)
 - AO: Mathematics (C)
 - GCSEs: 12 taken (A*-B)
-

Work Experience

September 2014 - December 2014 | Millets Retail Store Cheltenham

- Demonstrated social skills interacting with members of the public on the shop floor making sales.
- Gained real world experience of business cash flow.
- Became trusted with opening, closing and other higher priority tasks within the high street store.

February 2013 - February 2014 | Freelance IT Support & Computer Builds

- Built several computers for paying customers, most recent being an elderly man needing an upgrade.
- Majority of my work included supporting customers with little or no skill in IT, my main client being an elderly deaf woman needing concise instructions and lots of patience.
- Experience dealing with a diverse range of customers and managing my own business.

September 2013 - December 2013 | Mercy in Action Charity Shop

- Volunteered for 3 months, during which time I sorted and priced new stock, as well as independently rearranged or created new displays. Customer service was an important part of this job, and it improved my confidence.

July 2013 | Tiger Airways - Gloucester Airport

- Worked at a busy airport as summer staff, I was trusted with access to the hangers and aircraft themselves and was responsible for giving customers tours. Created a new gift certificate design for the company.
- Other tasks included handling office paperwork, organizing documents, taking phone calls and booking flights for clients.

September 2010 - Present | Paper Round

- Delivering papers before 7am every day. Many of the residents have been impressed with my consistency and reliability, reflected in cards, letters and generous tips!
-

Achievements

- Life-changing expedition to Laos and Thailand. The whole trip and the opportunity to teach English to Laos' children taught me so much about our materialistic values and lack of appreciation of our comparative privilege. Experience of being in a team as well as leading others. 100% school attendance since Year 5.
 - Taken GCSE Maths six months in advance, required independent study and self-motivation.
 - Achieved D of E Award.
 - Enjoyed participating in trips abroad, notably a jamboree camp in Denmark with Scouts from around the world. Required good communication and teamwork skills in sporting activities, as well as day-to-day tasks such as cooking and building shelters.
-

Interests

- Programming, travel, guitar, training and mathematics.
