

Max Goodridge

3 Keynsham Bank, Cheltenham, Gloucestershire, GL52 6ER
Mob: 07944 111167
Email: max.goodridge@hotmail.co.uk

Summary

Reliable, independent coder with a good education and experience of working in a technical business environment, with a diverse range of people. Aspirations to properly change the world through code.

Education

2009 - Early 2016 | Balcarras School

- A Levels: Mathematics, Further Mathematics, Computing, Physics
 - GCSEs: A*-C
 - Coursera, Codecademy, YouTube, ask for more
-

Experience

PANDA - Marketing Tools that Leverage Social Media <http://joinpanda.io/>

- Worked in Silicon Valley on a tech startup with my cofounder
- Worked on a maturing Django software product
- Gained real world experience of the tech industry and current startup ecosystem
- Deployed and maintained the live site on AWS EC2 (Ubuntu)
- AngularJS front end, advanced understanding of the underlying JavaScript concepts necessary to understand and therefore write better AngularJS code
- Traverse the DOM with ease

Flip Crash iOS (Swift) <https://itunes.apple.com/us/app/flip-crash/id1032532002?mt=8>

- Wrote app over a week or two, published and obtained hundreds of downloads
- Gained knowledge of Swift, Git command line

Python Graphing Utility <https://github.com/maxg203/graphing-utility>

- Worked at a busy airport as summer staff, I was trusted with access to the hangers and aircraft themselves and was responsible for giving customers tours. Created a new gift certificate design for the company.
- Other tasks included handling office paperwork, organizing documents, taking phone calls and booking flights for clients.

Personal Portfolio maxgoodridge.com

- Delivering papers before 7am every day. Many of the residents have been impressed with my consistency and reliability, reflected in cards, letters and generous tips!
-

Achievements

- Published multiple apps on the iOS app store
 - Working knowledge of deployment and maintenance of multiple live sites (with MySQL, PostgreSQL, MongoDB)
 - Advanced knowledge of SQL, although I prefer to let Django models do it for me
 - Meticulously fix bugs before writing new code
 - Punctual and will always try my best to set realistic deadlines
-

Interests

- Programming, travel, guitar, training and mathematics.
